Introduction

School management system is a need of every school. It is client-server based system that can connect more than 20 users in different departments (Admission Office, Accounts Office, Cash Office, Coordinator Offices, Principal Office, etc.) If there is a small institute with few classes then single computer user can install and work on this system.

Following modules are added:

- Student's Record Module
- Examination Module
- Student's Fee Module
- Student's Transport Module
- Miscellaneous Functions

Note: Modules can be added or skipped according to the requirement of institution.

Technical Requirements

Following are the requirements for client-server based installation:

- Windows Server 2016
- Windows 10
- Microsoft Office 2016
- Local Area Network

Following are the requirements if institute is small and use only one computer to work on the system:

- Windows 10
- Microsoft Office 2016

Note: We are responsible of installation and working of the system properly. For this purpose we use online AnyDesk services.

Add Reminder View Reminder

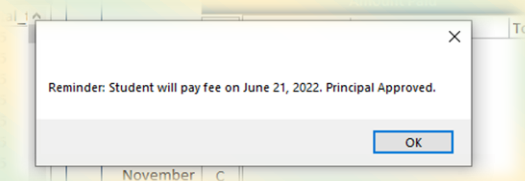

This window shows detailed fee information of student. In tuition fee portion user can get fee date wise i.e from 1/24/2020 to 1/24/2022. All the months calculated between two dates and fee shows at the bottom. Same is for bus fee. There is separate portion for other fees like Admission, SLC, Registration, Miscellaneous, etc.

User clicks on **Print** button, fee receipt prints and record is added in the system that shows in teller for further processing.

Adjust Fee button is controlled by administrator of the system for student's fee concession after approval from school management.

For important and unlimited remarks, **Fee remarks** and **Bus remarks** buttons are available.

Add Reminder button is also available that is very useful because whenever the student record opened, the reminder message shows first. (Reminder like fee pending, or advance received can be added)

Fee Detail button is for the parents, if they want fee detail till current month. Following is the image:

Miscellaneous Functions

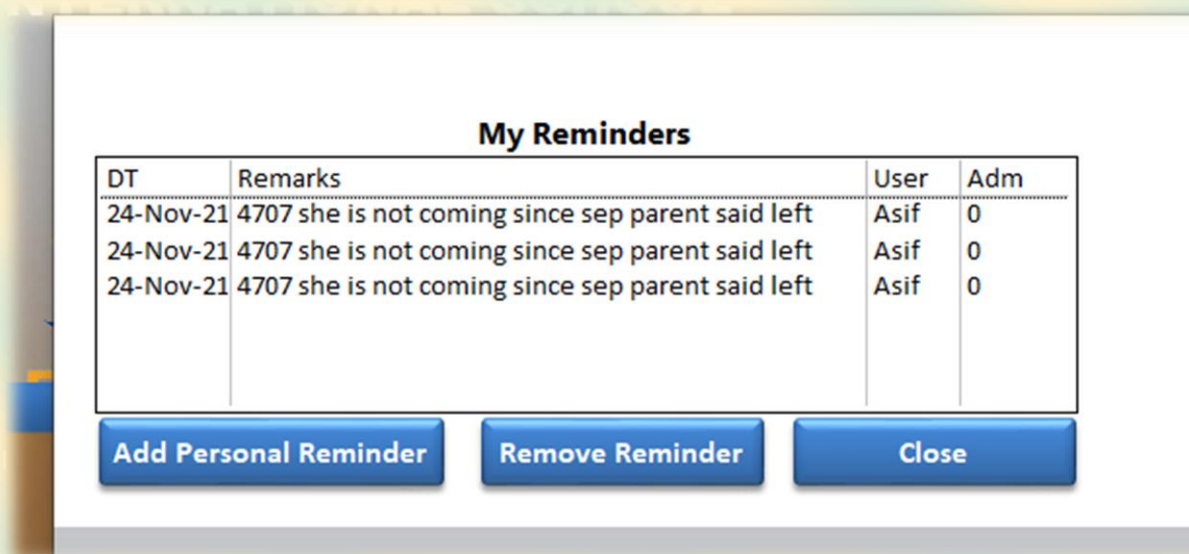

Following are the functions usually helpful for administrators:

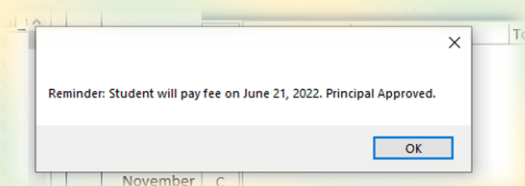

- Reminders
- Set Backup options
- Database for record

Reminders

Click on **Reminders** button.

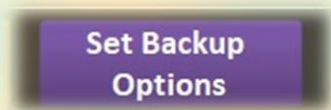

User can add personal reminder or reminder for student by entering admission number.

Reminder will appear when any user opens the record of student. **Remove Reminder** button is for delete the reminder.

Set Backup options

Click on **Set Backup options** button.

A screenshot of a web application window titled "Backup Reminder and Path". The window has a blue header bar with the title and a clock showing 9:54 on 1/24/2022. The main content area is white and contains three sections: "Daily Backup", "Weekly Backup", and "Monthly Backup". Each section has a "Set time:" label and a text input field. The "Daily Backup" section has a time of 15:00. The "Weekly Backup" section has a "Select Day:" dropdown menu set to "Thursday" and a time of 12:10. The "Monthly Backup" section has a "Select Day:" dropdown menu set to "Thursday" and a time of 12:00. Below these sections is a red text message: "Monthly Backup date is now set to 1/27/2022". At the bottom of the form is a section titled "Set source and destination paths" with two text input fields: "Source Path:" and "Destination Path:". The "Source Path:" field contains the text "\\mainserver\CMS\ccc\softdb\" and the "Destination Path:" field contains the text "F:\soft\dbbackup\". At the bottom right of the form are two buttons: "Save" and "Close Form".

Now no need to worry about the backup of the database. You set daily, weekly and monthly backup options. Give source path and destination path, backup will save automatically on the set time.

Database

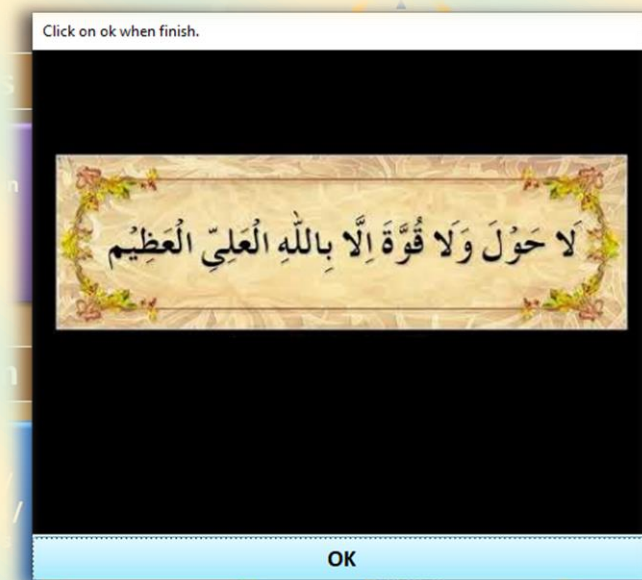

Click on **Database** button.
